**NEW SELF CONTAINED SUPER CUBER / GOURMET CUBE – ALSO AVAILABLE ON REQUEST WITH PWD (PROGRESSIVE WATER DISCHARGE)**

**\*Please Note :** Take leg height into consideration when making height allowances for undercounter installations. New and unique PWD (Progressive Water Discharge) by Scotsman. It solves all your drainage height or distance problems. Place your ice-maker just where you need it – up to 15m away and 1.5m lower than the actual drain outlet, at the same time keep algae or bacteria found in stagnant drain water, from contaminating the ice in the storage bin. PWD is standard on all new EC easy-fit line models – Special installation requirements must be followed.
